proposed fix

The diagram illustrates a proposed fix for a weight interpolation issue. It is divided into two main sections: 'bar' on the left and 'wrong\_start\_point' on the right.

**bar:** This section shows a vertical bar with a weight of 700.0 at the bottom and 900.0 at the top. A red arrow points from the bottom weight to the top weight, indicating a tolerance of 0.47.

**wrong\_start\_point:** This section shows a vertical bar with a weight of 700.0 at the bottom and 900.0 at the top. A red arrow points from the bottom weight to the top weight, indicating a tolerance of 0.47. This is labeled as 'midway interpolation'.

**proposed fix:** This section shows a vertical bar with a weight of 700.0 at the bottom and 900.0 at the top. A green arrow points from the bottom weight to the top weight, indicating a tolerance of 0.47. This is labeled as 'proposed fix'.
